

Nam Theun 2 Hydroelectric Project

Project Implementation Plan

Part E: Additional Plans

Part E: Additional Plans

Table of Contents

1	Additional Plans	4
1.1	Part A - General	4
1.2	Part B - Social	4
1.3	Part C - Environmental	4
1.4	Part D - Compliance with HCCEMMP	5

1 Additional Plans

An Additional Plan means an environmental and social plan, the components of which have been outlined in the relevant part of the PIP and to which the Interested Parties and NTPC have agreed to develop after FC.

1.1 Part A - General

There are no Additional Plans for Part A - General.

1.2 Part B - Social

Additional Plans	Submission to Lenders	Submission to RC
1 Up-dated Project Lands Re-settlement Plans for areas of impact or compensation within each type of Project Lands ¹	30 days prior to proposed implementation.	15 days prior to proposed implementation
2 Oudomsouk Up-dated Project Lands Re-settlement Plan(s)		
3 Downstream Channel (Gnommalath) Up-dated Project Lands Re-settlement Plan		
4 Transmission Lines Up-dated Project Lands Re-settlement Plans		
5 Downstream Areas Implementation Plan	FC + 12 months	

Note: Dates for implementation of Oudomsouk RAP are specified in the schedules for Oudomsouk. RAPs in items 3,4,5 are not sufficiently developed because the project activities themselves are not fully finalized as they will occur in the later part of the construction phase.

1.3 Part C - Environmental

Additional Plan	Date for Production
1 Fish Impacts in Upstream and Downstream Rivers Plan	31 March, 2007
2 Terrestrial Animals in the Inundation Area Plan	31 March, 2007
3 Asian Elephant Programme Plan	31 March, 2007
4 Transitional Strategy for Reservoir Impoundment Plan	31 December, 2006
5 Wetland Conversion and Formation Plan	30 June, 2007

¹ Cross-reference to Part 13.1(c) of the Concession Agreement. These Additional Plans may take the form of the base-line 2nd phase studies provided to GOL.

1.4 Part D - Compliance with HCCEMMP

There are no Additional Plans for Part D - Compliance with HCCEMMP.
